8:00 am - 8:00 pm

LOCATION:

Georgia World Congress
Center
Atlanta, GA
Building B

Multi-story exhibits include any display fixture that includes two or more levels. There are additional fees associated with Multi-story exhibits. For MRO Americas, the fee is US\$6 per sqft assessed by show management. Only island booths are permitted to build multi-level booths. Fees are assessed based on the total square footage of the booth, not the size of the platform.

If you are interested in building a multi-story exhibit, please contact your sales rep and submit all relevant plans and documentation to Allison Gold (allison.gold@aviationweek.com, +1 646.233.4425)

Multi-story Exhibit requires prior approval by the exhibit facility, and/or relevant local government agency and show management and will have additional fees applied.

The Georgia World Congress Center (GWCC) and the Georgia Dome (Dome) provide these guidelines to clarify the requirements for multi-story exhibit booths.

These guidelines are as follows:

- a. Covered or roofed areas should be furnished with acceptable battery-powered smoke detectors that emit alarms audible outside of the enclosed or covered area.
- b. The exhibitor will provide for a Fire Watch within the booth space. Personnel providing Fire Watch services must be supplied with a Class 2A10BC Fire Extinguisher in each enclosed area covered by the floor above. Personnel must be trained in the use of extinguishers.
- c. Spiral stairways are not recommended for areas occupied by the public, visitors or clientele, unless specifically approved.
- d. Exhibit booth plans must be submitted to the Georgia World Congress Center/ Georgia Dome Event Coordinator for review a minimum of sixty (60) days before move-in. There must be a licensed structural engineer's stamp of certification on all plans.
- e. The upper deck of multilevel exhibits greater than 300 square feet in area shall have at least two remote means of egress.
- f. Areas within the exhibit booth that are totally enclosed (i.e., walls and roof/ceiling) must be served by an emergency lighting source (i.e., battery-powered) when such areas lead to exit access from the space (e.g., stairs, aisles, corridors, ramps and passageways leading to an exit from the booth space).

For more information about adding a second story and the approval process, please contact Allison Gold at Allison.gold@aviationweek.com, +1.646.233.4425
